

ASTON MARTIN VANTAGE V8

SPORTS EXHAUST

The QuickSilver team has designed a choice of stainless steel 'Sports' exhaust systems for the V8 Vantage so that the driver can choose the level of sound to suit his requirement. The QuickSilver Sports system enhances the sound with more volume at higher rpm, without affecting the enjoyment of the high-mileage and urban driver as there are no intrusive tones in low or medium rpm. The driver will enjoy a higher pitched, crisper exhaust note with more volume as revs increase that is appropriate to the Aston Martin name. The QuickSilver SuperSports system provides a louder soundtrack throughout with a truly wonderful howl at higher rpm. Both systems for the V8 Vantage allow the speed and volume of the exhaust gas flow to be increased, producing a noticeable improvement in throttle response. A weight reduction of over 10.4kgs (~ 23lbs) over the standard unit means a noticeable improvement in performance.

KEY FEATURES

- ✓ Unique crisp sound rising in proportion with rpm.
- ✓ Dyno tests awaited – We expect approx 20 bhp improvement, more torque and better throttle response.
- ✓ Huge weight reduction from rear of car – 10.4kgs (~ 23lbs) lighter than stock - To benefit all areas of performance.
- ✓ Accelerated gas-flow draws heat away more efficiently to reduce under-floor temperatures.
- ✓ Entirely manufactured from aircraft grade 304 austenitic stainless steel including the flanges.
- ✓ Bolt-on fit.
- ✓ Our 25 Year Guarantee – since 1973.

Superior Exhausts for the World's Finest Cars

ASTON MARTIN VANTAGE V8

POWER

More power throughout. Improved throttle response

SOUND

'Sports' or 'SuperSports'

	Standard system	QS Sports	QS SuperSports	QS SuperSports Plus
Idle	71 dB	74 dB	74 dB	74 dB
4000 rpm	81 dB	84 dB	84 dB	85 dB
5000 rpm	88 dB	91 dB	92 dB	94 dB
6000 rpm	96 dB	96 dB	98 dB	99 dB
6750 rpm	96 dB	98 dB	102 dB	104 dB+

Notes:
 1) The standard factory system's volume increases to 96dB and, even though the tone changes, the volume remains constant.
 2) The QS Sports system is designed to meet the standard MSA scrutineering test
 3) The QS SuperSports exhaust takes on a crisp sporting note from 5000 rpm onwards.

WEIGHT

Aston Martin Factory Silencer	27.2kgs (~ 60lbs)
QuickSilver 'Sports' Silencer	16.8kgs (~ 40lbs) > Saving 10.4kgs (~23lbs)

QuickSilver has produced exhaust systems for racing Aston Martins from the earliest models to the present.
