

BENTLEY CONTINENTAL GTC

SPORTS EXHAUST

Sound is such an important part of driving a Sports Car - The Bentley Continental GT's original factory silencers are cleverly designed but too muted for many drivers' tastes, particularly as the W12 engine can produce such a unique background.

We have developed our 'Sports' system's internal design to allow the volume and flow to increase in proportion with rpm. This provides the W12 engine with a deeper tone at low engine speeds rising to a unique, higher pitched and crisper exhaust note at higher rpm - without ever spoiling the pleasure of this exotic and luxurious car.

QuickSilver's four tail-pipe option distinguishes the appearance for a unique look.

Much more efficient flow allows a noticeable improvement in turbo response for even more exuberant acceleration.

TAIL PIPES

Option 1:

This system is all-polished and designed to work with the factory Large-Oval trims which remain fitted to the body.

Option 2:

The same all-polished system but with 2 x 63mm (~2.5") tail-pipes each side (4 in all) that emerge through the original holes in the rear bumper. No modification is needed.

Superior Exhausts for the World's Finest Cars

BENTLEY CONTINENTAL GTC

 **POWER** : More power throughout +28 bhp @ 5300 rpm

 **WEIGHT**

Weight - Bentley Factory Silencers	32kgs (~70.4lbs)
QuickSilver Silencers	12.4kgs (~27lbs) > Saving 19.6kgs (~43lbs)

 **COMMENTS**

Sept 11th 2005 – Bentley Main Dealer in UK reports: "We have fitted the new system to our latest demo and it is one hundred times better in sound... I am delighted with the system and I know we will be selling a good number of these judging by the initial response and comments."

Oct 18th 2005 – Bentley Specialist in USA reports: "I just have one word to say about the Bentley exhaust, WOW! It sounded incredible. What a beautiful piece. The customer was very, very happy."

June 1st 2006 – Bentley Dealer in USA reports: "Fitted beautifully – Sounds like a jet on the outside but inside it's fine with no loss of ambience. We will be pleased to offer these to all our customers."

We have these in stock for immediate despatch and, like all our stainless steel exhaust systems they come with our 25 Year Guarantee.

QuickSilver has been producing exhaust systems for Road, Track and Concours since 1973
