
 LAMBORGHINI GALLARDO SE/SPIDER/COUPE

 'TITANIUM SUPERSPORTS' EXHAUST SYSTEM

For the owner who enjoys driving his Gallardo but wants more sports car sound and performance than the Gallardo already offers, QuickSilver's 'Titanium SuperSports' system is ideal. At low rpm this system has a deeper tone than stock, allowing conversation and the radio. At higher rpm the volume and pitch increase considerably, rising and falling with revs, a robust sound that is appropriate to Lamborghini.

 KEY FEATURES

- ✓ Huge reduction in weight of 21.4kgs or (~47lbs), from the rear of the car even lighter - benefiting all areas of performance!
- ✓ Wonderful sound
- ✓ All original exhaust Sensors and Probes are retained in their original positions
- ✓ Accelerated gas-flow draws heat away to reduce under-bonnet temperatures
- ✓ We recommend that the factory catalytic converters remain in place
- ✓ 100% aircraft grade Titanium silencer and type 304 austenitic Stainless steel tube

Superior Exhausts for the World's Finest Cars

6000rpm	92dB	108dB

 **'SUPERSPORTS' SYSTEM**

Factory System	27.8 kgs	(~ 61lbs)
QuickSilver Titanium SuperSports	6.4 kgs	(~ 14lbs)
Weight saving	21.4 kgs	(~ 47lbs)

 **COMMENTS**

Lamborghini Gallardo – October 2006 – L – USA

Just got back from the show and from having my QuickSilver exhaust put on. Sounds awesome, gained power, lost 31 pounds. I love it; it's guttural like the Countach was (I had an 87 QV Carb) and the car is all around more drivable - and it has more power (The Black Gallardo being revved has QuickSilver Sports system).

Lamborghini Gallardo – October 2006 – Chris – UK

'AWESOME !'

Lamborghini Gallardo – September 2006 – Weng - Singapore

'I have just received the Sports exhaust. It has been a great pleasure doing business with you. Many Thanks & Cheers'
Dr Kok-Weng CHAN

Improves Performance – Reduces Weight – Enhances Sound
